B- Reading Comprehension (16 Marks)

Read the following passage carefully, then answer the questions that follow:

Chess is called the game of kings. People have been playing it for over 500 years. Chess is based on an older Indian game. The chess we play today is from Europe. Chess is a two-player game. One player uses the white pieces. The other uses the black pieces. Each piece moves in a special way. One piece is called the king. Each player has one. The game ends when a player loses his king. There are many rules for playing chess. **They** are very difficult.

Some people think that chess is more than a game. They think that chess makes the minds **stronger**. Good chess players use their brains when they think about what will happen next. These skills are useful in life and in chess.

Chess is not just for people. We can also play chess with computers. Playing chess with computers started in 1970s. At first, computers made mistakes. As time went on, they became smarter. In 1997, a computer beat the best player in the world. It was a very big computer called Deep Blue. By 2006, a cell phone could beat the best players in the world.
